DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of the invention of species A, claims 1-8, 10-15 and 17, in the reply filed on October 30, 2006 is acknowledged.

Specification

2. The disclosure is objected to because of the following informalities: on page 2, line 15, "our" should read --are--; on page 7, line 16, "and" should read --an--; and on page 8, line 14, "shaving" should read --slaving--.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-8, 10-15 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitations "the transmission" and "the engine block" in lines 2-3. There is insufficient antecedent basis for these limitations in the claim.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-8, 10-15 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Forsyth et al. (US Patent 5,788,037).

Forsyth et al. discloses a method for assembling a clutch system on a drive train wherein the clutch system is installed on a transmission and after that the transmission is joined to an engine block (col. 1, lines 56-58), wherein a multiple disk wet clutch is integrated in the transmission housing (col. 1, lines 7-9), the clutch assembly including a dual-mass, see column 1, lines 56-67 and column 2, lines 1-47.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
